

I6500 B Serious air filtration for commercial and industrial spaces

Air filtration units in the I6500 series provide meticulous air cleaning for environments where chemicals, gases, odors, biological contaminants and particles are the main concern.

Ideal for commercial, manufacturing and healthcare facilities that require serious filtration.

- Gauge for visual indication of filter pressure
- 2 speeds for customized air flow
- Factory-balanced blower is tested to ensure quiet, vibration free operation
- Recessed control panel designed for easy monitoring
- Fuses protected
- 20 gauge powder coated steel cabinet for durability
- Lockable 3" wheels to lock unit in place
- Custom modifications upon request
